Classic parts for classic Volvo Penta engines

As an owner of a classic Volvo Penta engine, you can rest assured that your engine will remain in excellent working order for many years to come by using Genuine Volvo Penta Classic Parts.

Volvo Penta offers a customised concept called “Classic Parts” where some of the most common Genuine Volvo Penta Parts are specially selected and priced. Classic Parts helps you to keep your Volvo Penta engine in perfect working condition and at the same time provides a safer and more enjoyable time with your boat. A Genuine Volvo Penta Part should not only be regarded as an individual component, but also as an important part of the whole

engine. Using an untested part can often result in poor operational economy and reliability. There is also the potential to cause expensive damage to your engine and transmission.

You will only find “Classic Parts” at your local Volvo Penta dealer.

A wide range of genuine Volvo Penta parts

Classic Parts are specially selected and priced, they are offered to the following Volvo Penta engines:

Classic Volvo Penta engines

• Gasoline 5,0	7
• Gasoline 5,7	7

Double your warranty

Genuine Volvo Penta parts are covered by our standard 12 month warranty. Have them supplied and installed by an authorised Volvo Penta dealer and we'll extend your warranty to 24 months — including the labour. Consult your nearest Volvo Penta dealer for more details.

Note!

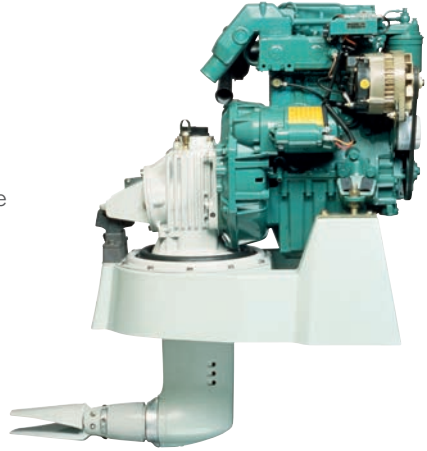

The selection of engine models has been carried out with a high degree of accuracy, but it is not possible to display all Volvo Penta engine models. We thank you for your understanding if your model is not included. Volvo Penta reserves the right to make changes without prior notice at any time.

Volvo Penta 2001 – 2003T

The Volvo Penta 2000 Series was developed for sailboats and small motorboats. The engine starts easily and runs very fuel efficiently.

The engine block and cylinder head are made from cast iron. Anodes for the engine and drive, seawater cooling, alloy flywheel housing and closed crankcase ventilation are all attributes which give the engine a long service life.

All important service and maintenance parts are located at the front of the engine. This makes it easy to service the engine with Volvo Penta classic parts.

Volvo Penta MD 2010 – 2040

The most compact of the small diesel marine engines, this Volvo Penta series consists of 2 and 3 cylinder engines, equipped with freshwater cooling and a 60 Amp alternator with charging sensor. A smooth and silent operating mode is secured with an adjustable rpm range. Available with saildrive and reverse gearbox.

Volvo Penta AD/TMD 30 – 41

A great example of marine innovations made by Volvo Penta, this series of engines played a big part in the diesel success stories within the marine boating industry. Together with the Volvo Penta Duoprop the most efficient torque curve was engineered. These engines were also equipped with turbochargers.

Note: Please specify your engine model with your Volvo Penta dealer and/or serial number and spec. number.

Volvo Penta

4,3 GXi – 5,7 GiE

All Volvo Penta gasoline engines were pure boating engines with reliable ignition systems and easy to maintain.

The V6 program (4,3 liter) offered a smooth and quiet running engine and at the same time a massive torque and high speed.

The proven V8 models (5,0 and 5,7 liter) offered strong acceleration, perfect for water skiing and wake boarding. They were available with carburetor or electronic fuel injection (EFI).

Note! Due to a wide range of gas engine models it is essential to check the serial number of your engine. Please provide the number to your local Volvo Penta Dealer, they will be then able to identify the correct engine model and suitable classic parts.
